Dear Mr Porteous

I am writing to confirm that the solar panels you installed are working well and to congratulate you on the standard of the workmanship and your employees and subcontractors.

The men were efficient and carried out the work to a high standard.

I was very impressed by the management of the project and the speedy way you completed it in the limited time available to allow us to submit the application to receive maximum return.

I would have no hesitation in recommending your company.

Yours faithfully
